

N° 49 : February 2023

VLUX is one of the most active world leaders in the development, production and commercialisation of quality weatherproof luminaires.

News from VLUX

Dear Customer, VLUX is delighted to present you some new high performance products.

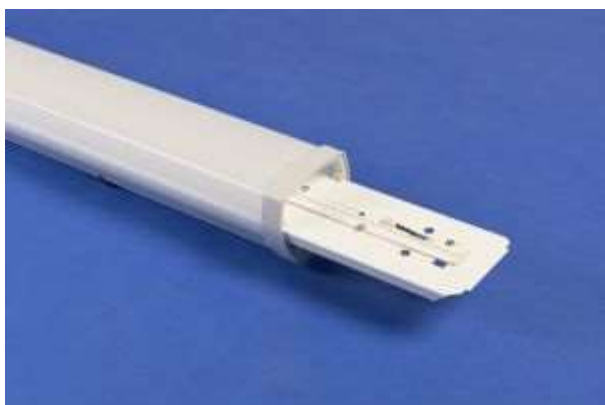

ELX

ELX is perfect for interior surfaces. It is also equipped with a grey PC base/ frosted diffuser.

Glued endcaps also in PC. Always with stainless steel suspension brackets. It has the option to have a complete PC frosted housing, triangles for suspension and cable glands for application $<0^{\circ}\text{C}$.

ELX ACCESS

Our new version of the ELX ACCESS fitting is no longer sealed for life.

The removable endcaps give access to the inner gear tray and make it possible to add several options like sensor and emergency kit.

ELX ECOLINE

The ELX ECOLINE lasts more than 50.000 hours.

It is a Frosted PC material.
Always with stainless steel suspension brackets.

ELX ACCESS ECOLINE

The ELX ACCESS ECOLINE lasts more than 50.000 hours.

Ideal for interior surfaces with 1 or 2 open endcaps.

LMX

The product is ideal for emergencies or interior surfaces.

Featuring an injection moulded housing made out of polycarbonate or polystyrene, with EPDM gasket.
The standard colour used is white.

TUBE 80

The TUBE80 can be used in various environments.

Excellent esthetics and high efficiency make this TUBE80 an eyecatching fixture for years to come.

VEL

VEL performs well for indoor surfaces and emergencies.

It also has an injection moulded housing made out of polycarbonate. The colour is standard and you can choose the semi recessing bezel option.

IDL

PAS FRIDGE

The product is used in daily life.
Recessed installation modular ceiling.

White painted metal. Recessed: for opening 600 mm.

3 versions : 1,2 or 3 LEDlines.

RLG

This is a new IP67 weatherproof product with a polyester base. The base is a glass reinforced polyester, compression moulded.

As an option it is a stainless steel suspension bracket, double cable entry and Wieland, Adels or Stucchi connector.

RLG is an indoor recessed LED panel.

This panel is specially designed for low glare.
Easy to add in ceiling systems or even on the surface.

Frame option available. Several wattages available.

TUBE EM LED

Ideal for weatherproof IP65 or emergency use.

Special frosted polycarbonate for uniform and soft lighting.

With optional frosted PMMA diffuser.

FUTURIX HT

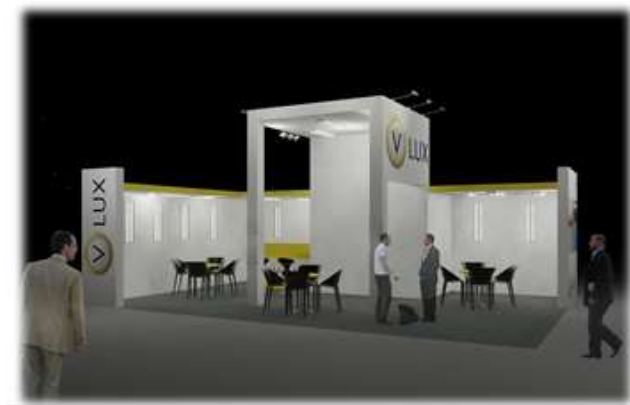

The Futurix HT (high temperature) is an IP66 weatherproof and has a polyester base.

But also the option of stainless steel suspension brackets.

A Special frosted polycarbonate diffuser for a smooth uniform lighting. Up to 60°C.
